2002 Second Quarter Report

Section Twenty-one of Chapter 799 of the Acts of 1985 directs the Commissioner of Correction to report quarterly on the status of overcrowding in state and county facilities. This statute calls for the following information:

Such report shall include, by facility, the average daily census for the period of the report and the actual census on the first and the last days of the report period. Said report shall also contain such information for the previous twelve months and a comparison to the rated capacity of such facility.

This report presents the required statistics for the second quarter of 2002.

Technical Notes, 1996 to Present¹

- The official capacity or custody level designation for each facility can change for a number of reasons,
 e.g. expansion of facility beds, decrease of facility beds due to fire, or changes in contracts with
 vendors. In all tables the capacity and custody level reflects the status at the end of the reporting
 period. The design capacity is reported for correctional facilities in Tables 1 through 6.
- Due to changes in the Massachusetts General Law, DOC consolidated one unit at the Bridgewater Treatment Center and back-filled with general population inmates. These design capacity beds were placed on-line November 8, 1996 and first appeared on the November 12, 1996 daily count sheet. Three hundred additional beds were placed on-line during the third guarter of 1997.
- Where relevant, the population figures for all facilities include both male and female inmates except as shown at Lancaster.
- State inmates housed in the Hampshire County contract program are included in the county population tables, as are all other state inmates housed in county facilities.
- Longwood Treatment Center is a specialized DOC facility which houses primarily individuals incarcerated for operating under the influence of alcohol. Because the inmates are predominantly county sentenced inmates, the inmate count and bed capacity are also included in Tables 3 and 4.
- Beginning with the second quarter of 1998 quarterly report, the following county correctional facilities
 are presented individually: Bristol Dartmouth, Bristol Ash Street, David R. Nelson Correctional
 Addiction Center, and Bristol Pre-Release in Bristol County; Essex Middleton and Essex Lawrence
 Correctional Alternative Center in Essex County; Middlesex Cambridge and Middlesex Billerica in
 Middlesex County; Norfolk Braintree, Norfolk Dedham, and Norfolk Contract in Norfolk County.
 Beginning with the third quarter of 1998 report, facilities for Suffolk and Hampden counties are
 presented individually.
- Nashua Street inmates housed at other facilities are reported in the counts for the facilities in which they are in custody.
- On October 22, 1997, Eastern Massachusetts Correctional Alcohol Center (EMCAC) was renamed the David R. Nelson Correctional Addiction Center (DRNCAC).
- Due to a DOC policy modification, the security level of Hodder House was changed from Security Level 2 to Security Level 3/2 during the first quarter of 2000.
- On May 18, 2000, the Braintree Alternative Center was temporarily closed for renovations by the Norfolk County Sheriff's Office. All inmates were transferred to the minimum security Pre-Release Center in Dedham.
- As of September 15, 2000, Longwood Treatment Center, male population, has been moved to the Massachusetts Boot Camp and the women were transferred to facilities housing female populations.
- As of September 22, 2000, Massachusetts Boot Camp no longer holds any medium security inmates.
- Due to DOC policy modification, the security level of Boston State Pre-Release was changed from Security Level 2 to Security Level 3/2 during the third quarter of 2001.
- Charlotte House has been closed effective November 9, 2001.
- Effective November 16, 2001 30 beds have been added to Security Level 3 at NCCI-Gardner, per policy 101.
- May 20, 2002, NECC changed from a Security Level 3 to Level 3/2. The design capacity for Security Level 3 is 62 and for Security Level 2 the design capacity is 88.

3

¹ For technical notes prior to 1996, please refer to previous quarterly reports.

Technical Notes, Continued

- May 20, 2002, Pondville changed from a Security Level 3 to Level 3/2 with a design capacity of 100.
- June 10, 2002, South Middlesex Correctional Center changed to a facility for female offenders.
- June 22, 2002, Old Colony Correctional Center added a Level 3 housing unit. The design capacity for Security Level 5 is 480 and for Security Level 3 the design capacity is 100.
- On June 30, 2002, the following facilities were closed. SECC (Medium), Hodder Cottage @ Framingham, MCI-Lancaster, The Massachusetts Boot Camp and the Addiction Center @ SECC.
- Prior to July 1, 2002, the Massachusetts Alcohol and Substance Abuse Center (MASAC) was named Massachusetts Boot Camp.
- The Treatment Center includes both civil and criminal populations.
- As of April 5, 2002, Norfolk County no longer has any contract beds, all inmates are now held at the Norfolk County House of Correction.
- As of April 5, 2002, Bristol County closed the Pre-Release facility and moved inmates to the Bristol County House of Correction.

4

On April 18, 1995, new security level designations were established according to 103 DOC 101 Correctional Institutions/Custody Levels policy which states

Custody Levels:

- **Level One.** The least restrictive in the department and is reserved only for those inmates who are at the end of their sentence and have been identified as posing little to no threat to the community. Supervision is minimal and indirect.
- **Level Two.** A custody level in which both design/construction as well as inmate classification reflect the goal of restoring to the inmate maximum responsibility and control of their own behavior and actions prior to their release. Direct supervision of these inmates is not required, but intermittent observation may be appropriate under certain conditions. Inmates within this level may be permitted to access the community unescorted to participate in programming to include, but not limited to, work release, educational release, etc.
- **Level Three.** A custody level in which both the design/construction as well as inmate classification reflect the goal of returning to the inmate a greater sense of personal responsibility and autonomy while still providing for supervision and monitoring of behavior and activity. Inmates within this security level are not considered a serious risk to the safety of staff, inmates or to the public. Program participation is mandated and geared toward their potential reintegration into the community. Access to the community is limited and under constant direct staff supervision.
- Level Four. A custody level in which both the design/construction as well as inmate classification reflect the goal of restoring to the inmate some degree of responsibility and control of their own behavior and actions, while still insuring the safety of staff and inmates. Design/construction is generally characterized by high security parameters and limited use of internal physical barriers. Inmates at this level have demonstrated the ability to abide by rules and regulations and require intermittent supervision. However, behavior in the community, i.e., criminal sentence and/or the presence of serious outstanding legal matters indicate the need for some control and for segregation from the community. Job and program opportunities exist for all inmates within the perimeter of the facility.
- **Level Five**. A custody level in which design/construction as well as inmate classification reflect the need to provide maximum external and internal control and supervision of inmates. Inmates accorded to this status may present an escape risk or pose a threat to other inmates, staff, or the orderly running of the institution, however, at a lesser degree than those at level 6. Supervision remains constant and direct. Through an inmates willingness to comply with institutional rules and regulations, increased job and program opportunities exist.
- Level Six. A custody level in which both design/construction as well as inmate classification reflect the need to provide maximum external and internal control and supervision of inmates primarily through the use of high security parameters and extensive use of internal physical barriers and check points. Inmates accorded this status present serious escape risks or pose serious threats to themselves, to other inmates, to staff, or the orderly running of the institution. Supervision of inmates is direct and constant.

Table 1 provides the DOC figures for the second quarter of 2002. As this table indicates, the DOC population (excluding AC, Shattuck, Bridgewater SH, SDPTC, and county inmates at the Massachusetts Alcohol and Substance Abuse Center) decreased by 267 inmates, from the first day of the second quarter to the last day of the quarter. At the end of the quarter, the DOC operated with 8,899 inmates in the system, and the average daily population was 9,003 with a design capacity of 7,584. Thus, the DOC operated at 119 percent of design capacity.

 $^{\rm 2}$ NCCI includes approximately thirty in mates housed at Security Level 3.

Table 2 provides the DOC figures for the previous twelve months - i.e., for the period April 2, 2001 to March 29, 2002. These figures indicate that the DOC population decreased by 153 over this twelve month period (excluding Bridgewater SH, SDPTC, AC, Longwood TC, and county inmates at the Massachusetts Alcohol and Substance Abuse Center), from 9,612 in April, 2001 to 9,459 in March, 2002.

Table 3 presents the county figures for the second quarter of 2002. The county population increased by 74 inmates, from the first day of the second quarter to the last day of the quarter. At the end of the quarter, the county system operated with 11,679 inmates, with an average daily population of 11,694 in facilities with a total design capacity of 8,356. Thus, the county system operated at 140 percent of design capacity.

Figure 1.

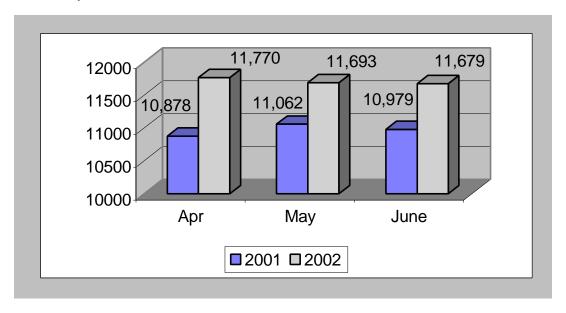

DOC Sentenced Population, Second Quarters of 2001 and 2002

The graph above compares the DOC sentenced population for the second quarter in 2001 to that in 2002, by month. For April 2002, the DOC population decreased by 702 inmates, or -7%, compared with the same month of 2001; for May, the population decreased by 697 inmates, or -7%; and for June the population decreased by 727 inmates, or -8%.

Figure 2.

HOC Population, Second Quarters of 2001 and 2002

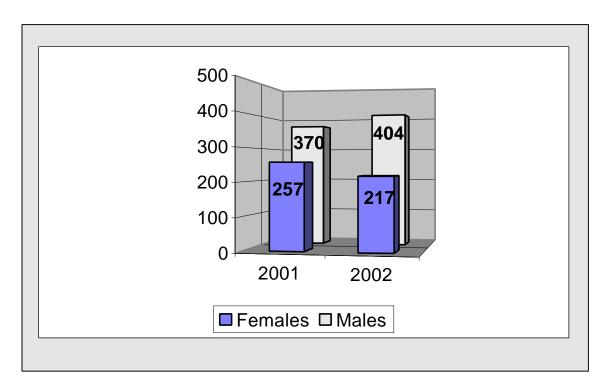

The graph above compares the HOC population for the second quarter in 2001 to that in 2002, by month. For April 2002, the HOC population increased by 892 inmates, or 8%, compared with the same month of 2001; for May, the population increased by 631 inmates, or 6%, and for June, the population increased by 700 inmates or 6%.

Note: Data for Figure 2 was taken from the end of the month daily count sheet compiled by the Classification Division.

Table 7, provides quarterly statistics on new, criminally sentenced court commitments to the DOC for the second quarters of 2001 and 2002, by sex. Overall, there was decrease of 6 new court commitments for 2002 in comparison with the number of new court commitments in 2001, from 627 to 621. Male commitments for the second quarter of 2002 increased by 34 from 2001, or 9 percent. Female commitments for the second quarter of 2002 decreased by 40 inmates, or -16 percent compared to the number of commitments for 2001.

Quarterly DOC New Court Commitment by Sex						
	2001	2002 D	ifference			
Males						
First Quarter	368	425	15%			
Second Quarter	370	404	9%			
Sub-Total	738	829	12%			
Females						
First Quarter	241	325	35%			
Second Quarter	257	217	-16%			
Sub-total	498	542	-9%			
Total	1,239	1,371	11%			

Figure 3 provides a graphical representation of the number of new, criminally sentenced court commitments to the DOC during the second quarters of 2001 and 2002, by sex.

Note: Data for Table 7 and Figure 3 were obtained from the DOC's Inmate Tracking Database and the IMS Database.
